RESEARCH INTERESTS

Urban Perception Modeling · 2D & 3D Computer Vision · LiDAR Point Cloud Processing · Deep Learning for Remote Sensing · Semantic Segmentation · Large Language Models (LLMs) · Urban Computing · Geospatial AI

EDUCATION

Ph.D. in Data Science and Engineering, IISER Bhopal, India *Aug 2022 – Present*
CGPA: 9.0/10 | *Supervisor:* Dr. Vaibhav Kumar, GeoAI4Cities Lab
Thesis: Quantification of Quality of Life using 2D and 3D Spatial Data and AI

M.Tech. in Geoinformatics, Indian Institute of Space Science and Technology (IIST), Thiruvananthapuram *2020 – 2022*
CGPA: 8.69/10 | *Supervisor:* Dr. Ramiya A.M. | *Thesis:* Semantic Segmentation of Point Cloud using Deep Learning

B.Tech. in Civil Engineering, SRM University, Chennai *2012 – 2016*

PUBLICATIONS

** equal contribution. Published as Pyare Lal and Pyare Lal Chauhan (P. Lal, P. L. Chauhan).* [All PDFs]
Impact Factor: Journal Citation Reports 2024 (Clarivate). Quartile (Q): Scopus/SCImago, journal's best subject category.

Peer-Reviewed Journal Articles

[J1] **P. L. Chauhan**, A. S. Bais, and V. Kumar, "Performance Analysis of Subsampled LiDAR Point Clouds Using Deep Learning Based Semantic Segmentation," *Applied Intelligence*, vol. 56, Article 273, 2026. (IF 3.5, Q2) [DOI] [Code]

Peer-Reviewed Conference Papers

[C1] **P. L. Chauhan**, V. Kumar, and B. Lohani, "BhopalMLS: A LiDAR Dataset for Semantic Scene Understanding in Heterogeneous Urban Environments," *IEEE/CVF Winter Conference on Applications of Computer Vision (WACV)*, 2027. *Accepted, to appear.*

[C2] **P. L. Chauhan**, J. Vijaywargiya, and A. M. Ramiya, "Addressing Class Imbalance Challenge in Semantic Segmentation of ALS Data through Performance Analysis of RandLA-NET and PointNET++," *IEEE India Geoscience and Remote Sensing Symposium (InGARSS)*, Bangalore, India, 2023, pp. 1–4. [DOI]

Manuscripts in Preparation

[M1] **P. L. Chauhan** and V. Kumar, "Overhead Clearance Rather than Carriageway Width as the Limit on the Largest Emergency Vehicles: Multi-City Mapping from Mobile Laser Scanning by Model Merging." *In revision, to be submitted.*

[M2] **P. L. Chauhan** and V. Kumar, "Student Capacity Decides Which Distillation Signals Help: Efficient 3D Encoders from Diverse Frozen Teachers." *In preparation.*

Patents

[P1] V. Kumar, **P. Lal**, and T. K. Baswal, "A Pedestrian Navigation System Based on Human Perceptions," Indian Patent Application No. 202421059925, filed 8 Aug. 2024; response to the First Examination Report filed 9 Jul. 2026. Applicant: IISER Bhopal.

DATASETS & OPEN-SOURCE CONTRIBUTIONS

- **BhopalMLS**: Lead annotator-training and QC for a large-scale Indian urban mobile LiDAR dataset (1.2 billion points, 62 static classes; data paper at WACV 2027, [C1]).
- **Ke-MLS**: Co-creator, large-scale labeled mobile LiDAR dataset for Indian urban region. [Paper]
- **svi_perception**: Code for street-view perception and pedestrian-oriented route planning. [GitHub]
- **LiDAR-Subsampling-Benchmark**: Code for subsampling benchmark in LiDAR semantic segmentation. [GitHub]
- **umdmix-uda**: Code for Urban Multi-Domain Mixing (UMDMix) unsupervised domain adaptation in LiDAR semantic segmentation. [GitHub]

RESEARCH EXPERIENCE

Doctoral Researcher, GeoAI4Cities Lab, IISER Bhopal *Aug 2022 – Present*

- Deep learning for LiDAR semantic segmentation in urban environments; emergency vehicle accessibility mapping using 3D geospatial data
- Cross-city perception modeling (Mumbai–Paris) and multi-source 2D/3D fusion for urban quality-of-life with a Global-South corrective framing
- Lead annotator-training and QC for **BhopalMLS**, a large-scale Indian urban mobile LiDAR dataset (data paper at WACV 2027); unsupervised domain adaptation for cross-domain segmentation

M.Tech. Research, IIST Thiruvananthapuram *2020 – 2022*

- Semantic segmentation of airborne LiDAR with deep learning (RandLA-Net, PointNet++); addressed class-imbalance in ALS classification

PROFESSIONAL EXPERIENCE

Director, Netrica.AI — early-stage urban-AI venture; incubated at IICE IISER Bhopal and AIC IISER Pune; AIC-SEED grant and Student Innovation Grant *Feb 2026 – Present*

Data Science Intern, GalaxEye Pvt Ltd (IIT Madras startup), Chennai *Feb – May 2022*

- Road network detection and pre-fire risk prediction using Sentinel-1 (SAR) and Sentinel-2 (optical) imagery; vegetation cover change pipelines in Python

Research Intern, Indian Institute of Soil & Water Conservation (IISWC), Dehradun *Jun – Aug 2022*

- Land use / land cover classification and change detection on Sentinel-2 and Landsat imagery; NDVI/EVI time-series workflows on Google Earth Engine

HONORS & AWARDS

- **Prize Winner**, AI Hackathon for Smart Parking Solutions, IITTNIF, IIT Tirupati 2025
- **First Prize** (team lead), IEEE-GRSS Student Hackathon, Bangalore 2023
- **Top 5 of 500 teams**, DST–SOI–Microsoft Geospatial Research Hackathon, IIIT Hyderabad 2023
- **ACM India Anveshan Setu Fellowship** 2023
- **Travel Grant**, IndoML Symposium, IIT Gandhinagar 2022

LEADERSHIP & SERVICE

- **Founding Chair**, IEEE GRSS Student Branch Chapter, IISER Bhopal Aug 2026 – Present
- **Reviewer**, *Scientific Data* and *Discover Artificial Intelligence* (Springer Nature) 2026

TEACHING & MENTORING

Teaching Assistant, IISER Bhopal: Artificial Intelligence (DSE313) [GitHub], Spatial Data Science (DSE416), Accelerated Applied AI, Applied Optimization, 3D Deep Learning and Applications.
Mentoring & Workshops: Guiding two B.S. students and one M.S. student; supervised two annotation assistants (∼1 year) on BhopalMLS annotation/QC; led the two-day workshop "3D Modeling: Exploring LiDAR and Point Cloud Data for the Future," IISER Bhopal (Oct 2024).

TECHNICAL SKILLS

Programming:	Python, MATLAB
Deep Learning:	PyTorch, TensorFlow, Point Cloud Networks
Geospatial:	Google Earth Engine, QGIS, ArcGIS, CloudCompare, Open3D
Remote Sensing:	Sentinel-2, Landsat, Sentinel-1 SAR, LiDAR (ALS/MLS) Processing
Tools:	Git, Docker, LaTeX, Linux
Languages:	Hindi (native), English (professional)
